

Fall 2018

Dear McKenzie Parents,

Attached you will find registration and class information for the fall session of After School Clubs through the Wilmette Park District. The Fall 1 session runs Tuesday, September 11 – Friday, October 19. The Fall 2 session runs Monday, October 22 – Friday, December 21. Please note the days off for each particular day. All participants can register through the Wilmette Park District starting on Tuesday, August 28 at 9:00 am. If you do not currently have a household account with the Park District, please set one up prior to this date. Please note that this information is only on the Wilmette Park District website and not in our Explore Guide. **The registration deadline will be two business days before the club is scheduled to start. Late registration will go onto a waitlist. You will be contacted if we are able to add your child into the club. Please do not let the waitlist deter you from registering; there may still be room to add your child into the class.**

The Park District will have an On-Site Coordinator from 3:00 pm through end of classes and pick-up. Children are expected to be picked up on time. Parents will incur a late fee of \$10 for every ten minutes they are late to pick-up. To reach the On-Site Coordinator, please call 224-725-7400 starting at 3:00 pm, only while After School Clubs are in session.

Students will be dismissed from their classroom and checked in at the cafeteria by the After School Club Coordinator immediately after 3:15 pm dismissal. Students registered for Friday classes will be supervised by school staff and brought to the cafeteria for check in at 3:15 pm. Participants must stay in school until the start of class. The children will be dismissed from the front entrance of school at the end of class.

****Please note:** After School Clubs are not guaranteed to run unless they meet their minimum registration requirement. Minimum requirements vary for each club. **Clubs are not meant to substitute for childcare.** In compliance with the school snack policy, children may only bring a fruit or vegetable snack to have prior to class starting. The Park District will not be providing any snacks. Please see the attached schedule.

If you have any questions, please contact me at hkessler@wilpark.org or 847-853-6297.

Sincerely,

Haylee Kessler

Recreation Activity Coordinator

Wilmette Park District

Wilmette Park District McKenzie After School Club Program

**Registration Begins
Tuesday, August 28 at 9:00 am**

You may register in person at any
Wilmette Park District facility or at
www.wilmettepark.org

Bit Space Hands on Design and Construction

Our Bits class is a next-generation shop class for budding young makers and creative problem solvers. Students participate in hands-on design and construction projects utilizing a combination of hand tools and small power tools to create crafts from real materials. And the best part is that students get to keep whatever they make!

Boys Break Dance by Chicago Loves Dance

Under the creative direction of skilled Chicago Loves Dance break dancers, students will learn choreography and poses, will show off their creativity in freestyle sessions, and more. Chicago Loves Dance runs on the philosophy that dance should open your child's creative abilities and be FUN! We pride ourselves on teaching the self-esteem and socialization needed in everyday life through dance and performance. The last day of class will be a parent watch day where they will do a short performance to show off their new talents.

Chess Enrichment

Learn to play and enjoy the "Sport of the Mind"--CHESS. This is an exciting class that takes the student to a new level of expertise. Whether they are beginners or continuing and competitive, the lessons are geared to enhance each student's level of play. Studies continue to confirm that the student that plays and studies chess does better academically. Chess will develop analytical and critical thinking skills, decision making, responsibility for choices, sportsmanship, focus, concentration, and patience in all they do. They will be studying opening theory, middle game planning and endgame combinations, plus tactics and strategies to enhance their skill set.

Coding with Microbits

The BBC microbit is a pocket-sized computer that you can code, customize and control to bring your digital ideas, games and apps to life. The microbit is a powerful mini-computer! Students will see their code come to life in a physical and tactile environment. They will create emoticon displays, games, messages, light and music. Kids will take home a microbit kit at the end of class.

Girl's Power Hour by Mission Propelle

Mission Propelle empowers girls in elementary school to discover who they are, what they believe, and how to advocate for themselves. We accomplish this through an after-school program that combines yoga, reading, and mentoring. Girls develop mindfulness and self-confidence as they practice yoga. They learn how to solve problems by reading original storybooks starring Dottie Tov, a relatable and age-aligned female protagonist. Throughout class, girls learn to apply leadership skills in their everyday lives as they receive situation-based mentorship from trained instructors. All girls receive digital downloads of the original storybooks each week!

Let's Build It – Robotics

Enter into the fascinating world of robotics. In this exciting STEAM program, students will design, build and test their very own robots under the guidance of an experienced AES instructor. Projects include remote control cars, claws, cranes, crawlers, and battle bots. Educational components include gear ratios, mechanical design, electronics, and robotics engineering. No previous experience is necessary, just a desire to have fun, build, and learn. Each student will receive an award on the last day of the session, and have the opportunity to earn Energy Belts to demonstrate their learned skills!

Let's Build It – Wacky Waves

Wacky Waves is an exhilarating, cutting-edge area of engineering. In this unit, students will design, build, and test various circuits and electronic projects. Instructors will guide students through core concepts of electrical engineering, introducing them to circuits and electrical components. Students will use hands-on projects and experiments to explore how electricity is part of our daily lives. No previous experience is necessary, just a desire to learn and build. Projects will include: various sound producing circuits, musical instruments, a simulated telephone, and even both their own radio...and radio station! Each student will receive an award on the last day of the session, as well as the opportunity to earn engineering belts to demonstrate their learned skills!

Stage Stars

It's your time to shine; it's acting time! In Stage Stars, children will learn theater terms, play games, and act in short skits. During theater games, students will use their creativity to communicate and improvise. The carefully selected skits are based on folk tales that teach cooperation and positive moral values. Every student will have the opportunity to play at least one lead role per session. Also, Stage Stars participants can earn prizes for identifying and explaining parts of a skit and goals of the characters. Each child will receive a participation award. Parents are invited to attend the final performance on the last day of class!

Young Rembrandts Drawing

Enroll your elementary student in a Young Rembrandts drawing class. Our bountiful selection of drawings introduces our students to a fascinating world of color, pattern, and design. Keeping with the season, during FALL 1, our students will create fall-themed illustrations like taffy apples and a farmer's scarecrow. Stylized art styles will be explored through our tarantula line art and Van Gogh-inspired drawing featuring vibrant sunflowers. During FALL 2, students will have a blast drawing their favorite emoji's in a fun collage as well as exploring color with our watch color wheel lesson. Seasonal art will be a hit, as we do a cartoon style drawing of a dog with antlers and a graphic of Candy Canes. All this and more awaits your child in the Young Rembrandts classroom.
